Flutes were known to exist in ancient civilizations. Over the years, they have been made of wood or metal. Early flutes, such as recorders, are played pointing forward. The other type of flute, called a transverse flute until the mid-1800s, is played to the side.

In 1847, Theobald Boehm designed the modern flute. This flute is capable of playing with more volume than older flutes. The keys Mr. Boehm added also allow the instrument to play a full chromatic scale, and help it to play better in tune.

The flute family includes the C Flute (the most common), C Piccolo, Alto and Bass Flutes. As the highest pitched members of the concert band, marching band and orchestra, flutes play melodies, harmonies and solos, and are important members of the woodwind family.

J. S. Bach, Claude Debussy and Ralph Vaughan Williams are important composers who have written music for the flute. Some famous flute performers are Louis Moyse and James Galway.

THE BASICS

Posture

Sit on the edge of your chair, and always keep your:

- Spine straight and tall
- Shoulders back and relaxed
- Feet flat on the floor

Breathing & Airstream

Breathing is a natural thing we all do constantly. To discover the correct airstream to play your instrument:

- Place the palm of your hand near your mouth.
- Inhale deeply through the corners of your mouth, keeping your shoulders steady. Your waist should expand like a balloon.
- Slowly whisper "too" as you gradually exhale air into your palm.

The air you feel is the airstream. It produces sound through the instrument. Your tongue is like a faucet or valve that releases the airstream.

Producing The Essential Tone

Embouchure (*ahm'-bah-shure*) is your mouth's position on the mouthpiece of the instrument. A good embouchure takes time and effort, so carefully follow these steps for success:

- Hold the closed end of the head joint in your left hand. Cover the open end with the palm of your right hand.
- Rest the embouchure plate on your bottom lip. Center the embouchure hole on the center of your lips. Check by touching the embouchure hole with the tip of your tongue.
- Gently roll the head joint forward so that approximately 1/4 of the embouchure hole is covered by the lower lip.
- Keep upper and lower teeth spaced slightly apart.
- Draw the corners of your mouth straight back and relax your lower lip.
- Make a small opening in the center of your lips. Blow air partly into and partly across the embouchure hole.
- Practice regularly in front of a mirror. Roll the head joint in or out to find the embouchure position that produces your best clear and full tone.

Taking Care Of Your Instrument

Before putting your instrument back in its case after playing, do the following:

- Carefully remove the head joint and shake any water out.
- Put a clean soft cloth on the end of your cleaning rod and swab out the head joint.
- Twist the middle and foot joints apart and draw the cleaning rod through each joint.
- Carefully wipe the outside of each section to keep the finish clean.

MOUTHPIECE WORKOUT

Form your embouchure and take a deep breath without raising your shoulders.

Whisper "too" and gradually exhale your full airstream. Strive for an even tone.

REST

REST

Getting It Together

- Step 1** Hold the head joint in your left hand and the middle joint in your right hand. Gently twist and insert the head joint into the middle joint. Make sure that the embouchure hole is directly in line with the middle joint's row of keys.
- Step 2** Hold the assembled middle joint in your left hand and the foot joint in your right hand. Gently twist and insert the middle joint into the foot joint. The embouchure hole, keys of the middle joint and the long rod on the foot joint should all line up.
- Step 3** Rest your left thumb on the underside's long straight key. Keep your wrist straight. Your fingers should arch naturally. Rest your fingertips on the center of the keys.
- Step 4** Place the tip of your right thumb on the flute's underside between your first and second fingers. Arch your fingers and rest them lightly on the keys. Put your little finger on the E-flat key.
- Step 5** Allow the embouchure plate to press lightly against your lower lip. Hold the flute as shown:

READING MUSIC

Identify and draw each of these symbols:

Music Staff

The **music staff** has 5 lines and 4 spaces where notes and rests are written.

Ledger Lines

Ledger lines extend the music staff. Notes on ledger lines can be above or below the staff.

Measures & Bar Lines

Bar lines divide the music staff into **measures**.

Long Tone

To begin, we'll use a special "Long Tone" note. Hold the tone until your teacher tells you to rest. Practice long tones each day to develop your sound.

HISTORY

Japanese folk music actually has its origins in ancient China. "Sakura, Sakura" was performed on instruments such as the **koto**, a 13-string instrument that is more than 4000 years old, and the **shakuhachi** or bamboo flute. The unique sound of this ancient Japanese melody results from the pentatonic (or five-note) sequence used in this tonal system.

Ragtime is an American music style that was popular from the 1890's until the time of World War I. This early form of jazz brought fame to pianists like "Jelly Roll" Morton and Scott Joplin, who wrote "The Entertainer" and "Maple Leaf Rag." Surprisingly, the style was incorporated into some orchestral music by Igor Stravinsky and Claude Debussy. The trombones now learn to play a *glissando*, a technique used in ragtime and other styles of music.

HISTORY

Austrian composer **Franz Peter Schubert** (1797–1828) lived a shorter life than any other great composer, but he created an incredible amount of music: more than 600 art-songs (concert music for voice and accompaniment), ten symphonies, chamber music, operas, choral works and piano pieces. Solo with Piano Accompaniment

You can perform this solo with or without a piano accompanist. Play it for the band, the school or your family. It is part of **Symphony No. 9 ("From The New World")** by Czech composer **Antonin Dvorák** (1841–1904). He wrote it while visiting America in 1893, and was inspired to include melodies from American folksongs and spirituals. This is the **Largo** (or "very slow tempo") theme.

Scale

A **scale** is a sequence of notes in ascending or descending order. Like a musical "ladder," each step is the next consecutive note in the key. This scale is in your Key of B \flat (two flats), so the top and bottom notes are both B \flat 's. The interval between the B \flat 's is an octave.

147. CONCERT B \flat SCALE

THEORY

Chord & Arpeggio

When two or more notes are played together, they form a **chord** or **harmony**. This B \flat chord is built from the 1st, 3rd and 5th steps of the B \flat scale. The 8th step is the same as the 1st, but it is an octave higher. An **arpeggio** is a "broken" chord whose notes are played individually.

148. IN HARMONY

Divide the notes of the chords between band members and play together. Does the arpeggio sound like a chord?

149. SCALE AND ARPEGGIO

HISTORY

Austrian composer **Franz Josef Haydn** (1732–1809) wrote 104 symphonies. Many of these works had nicknames and included brilliant, unique effects for their time. His Symphony No. 94 was named "The Surprise Symphony" because the soft second movement included a sudden loud dynamic, intended to wake up an often sleepy audience. Pay special attention to dynamics when you play this famous theme.

As a testament to his greatness, his Symphony No. 9 (p. 13) was performed as the finale to the ceremony celebrating the reunification of Germany in 1990. CREATING MUSIC

THEORY

Composition

Composition is the art of writing original music. A composer often begins by creating a melody made up of individual **phrases**, like short musical "sentences." Some melodies have phrases that seem to answer or respond to "question" phrases, as in Beethoven's *Ode To Joy*. Play this melody and listen to how phrases 2 and 4 give slightly different answers to the same question (phrases 1 and 3).

1. ODE TO JOY

Ludwig van Beethoven

2. Q. AND A. Write your own "answer" phrases in this melody.

3. PHRASE BUILDERS Write 4 different phrases using the rhythms below each staff.

4. YOU NAME IT:

Pick phrase A, B, C, or D from above, and write it as the "Question" for phrases 1 and 3 below. Then write 2 different "Answers" for phrases 2 and 4.

THEORY

Improvisation

Improvisation is the art of freely creating your own melody as you play. Use these notes to play your own melody (Line A), to go with the accompaniment (Line B).

- Carefully remove the head joint and shake any water out.
- Put a clean soft cloth on the end of your cleaning rod and swab out the head joint.
- Twist the middle and foot joints apart and draw the cleaning rod through each joint.
